	11/12/10 14:25 CST		0.15M	Thunderstorm Wind (EG 56 kt)
	11/12/10 14:25 CST		0	Source: NWS Storm Survey
<p>A microburst damaged part of the southern portions of the city of Greenville. Several businesses and residential structures sustained roof damage. The roof of a Braum's was heavily damaged, and the roof at an automobile service station on Business 67 was partially blown off. In addition, the garage door at the service station at the Enterprise Rent-A-Car was blown in and a gash was torn into the wall. Several large trees were blown down, a gas station sign was blown down, and a sign at Crossroads Mall fell on a car. Three power poles were snapped on Sayle Street causing a black out in the area. Maximum wind gusts were estimated to be 65 mph. One person sustained minor injuries, and was treated and released from the medical center.</p> <p>A microburst occurred on the south side of Greenville damaging several buildings; including an automobile service building and a Braum's fast food restaurant.</p>				
(TX-Z162) LEON, (TX-Z175) ROBERTSON				
	11/20/10 00:00 CST		0	Drought
	11/30/10 23:59 CST		14K	
<p>With the rainfall deficit continuing to increase across North Texas, drought conditions quickly began to worsen. Both Robertson and Leon County were classified as Severe Drought (D2) by the end of the month. However, a total of 16 counties had burn bans in effect this month, and most of these counties were located west of Interstate 35. Agricultural impacts due to the drought were limited to stress on wheat crops and very low stock water tanks in some areas.</p>
